Yale University Affiliations

2000 – present *Center for Interdisciplinary Research on AIDS (CIRA)*, Yale School of Public
Health

Activities: I was a founding member of this research center, which has been
continuously supported by a P30 grant from the National Institutes of Mental
Health. This center is devoted to behavioral, interdisciplinary research for the

prevention and treatment of HIV. This center has over 200 investigators and another 200 affiliated scholars who contribute to several research cores. I have been part of the Methods Core, Health Services Research Core, International Core and the Dissemination and Implementation Science Core.

2004 – present *Yale Center for Clinical and Community Research, Yale School of Medicine*

Activities: I founded and direct this research center within the Department of Medicine. The center has over 20 researchers from several universities and is devoted to both domestic and international patient-oriented and health services research. Research is both domestic and international.

Researchers are from the fields of medicine, public health, psychology, sociology, nursing, health geography, decision science and computational biology. The center includes domestic and international research, seminars, research in progress and training for junior scholars and includes the HIV in Prisons Program (the first academic-justice partnership on health in the U.S.), the Community Health Care Van (the first mobile medical clinic to provide services to people who inject drugs) and the New Haven HIV Prevention Collaborative.

2012 – present *Global Health Justice Partnership, Yale Law School*

Activities: I was an inaugural member of this partnership between the Yale Law School and Yale School of Public Health, which is designed to promote interdisciplinary, innovative, and effective responses to key problems in health justice.

2015 – present *Solomon Center for Health Law and Policy, Yale School of Law*

Activities: This center focuses on the intersection of law and the governance, practice, and business of health care and brings together leading experts and practitioners from the public and private sectors to address cutting-edge questions of health law and policy, and to train the next generation of top health lawyers, industry leaders, policymakers, and academics.

2017 – present *Yale Institute on Global Health, Yale University*

Activities: I was a founding member of this institute's creation. It serves as the central hub for global health initiatives at Yale University, uniting expertise from across the campus to tackle pressing health challenges worldwide. Established in 2017, YIGH is a collaborative effort led by the Schools of Medicine, Public Health, and Nursing, embodying a university-wide commitment to improving health and achieving health equity globally. I am currently active in the Global Addictions Network, Global HIV/AIDS Research Network and the Emergency, Critical Care and Disaster Medicine Network.
